

Spring 1 - Fire, Fire!

Week beginning: Monday 29th January 2018

English - This week we will be writing our own dragon adventure stories. We will be planning the beginning, middle and end and then writing each section. We will focus on making interesting word choices (e.g. adverbs and adjectives) as well as using conjunctions.

Maths - This week we learning about multiplication. We will start by revising the things we already know (e.g. counting in 2s, 5s 10s) before moving onto using the 'x' symbol. We will be focussing on using objects and pictures to help with our learning.

Topic - This week we are starting to make our dragon models. We will be using different art and design materials to craft our models. In PSHE we are considering how to share our ideas with someone effectively.
